Monday, 5 March 2018

At Absalon Hotel, our goal is simply to provide every single guest with the most memorable and personalized experience - and making them feel at home. We are therefore very excited to be among the first hotels in Copenhagen to introduce **Handy** Smartphone.

"This complimentary service enables visitors to travel like a local", says Mattias Green, Sales Director at Tink Labs. With **Handy** guests get free local & international calls, free internet access, personalized push messages, exclusive promotions and on-the-go hotel concierge service.

Speaking on behalf of Absalon Hotel, Karen Nedergaard, General Manager says, "Our mission for Absalon Hotel is to create memorable and unique experiences for all our guests right from when they enter to when they leave our hotel. With **Handy** we are able to provide a personalized experience for our guests".

Absalon Hotel is centrally located in the trendy and hip neighborhood Vesterbro in the heart of Copenhagen. We offer free Wi-Fi, 24-hour reception, bike rental, wine-hour, Concept24 and much more.
